- 10,000 possible 4-digit combinations
- Compatible with wood, glass, plastic, phenolic and metal locker doors
- One Master Key has 3 functions: bypasses the code, resets the lock, and retrieves the code - all conveniently from the front
- Lock features reprogrammable-cylinder. When Master Key is lost or stolen, new Master Key is issued. Simply insert new Master Key and cylinder is reprogrammed - patented solution
- Anti-pick and tamper resistant
- Self-correcting, Breakaway Knob protects against forced entry - patented solution
- IP59K - Complete dust and water resistance

- Strong 100% metal for long-term and heavy-use - no plastic components
- Large, clear combination digits, double the size of any competitors (5mm tall), that don't fade
- Sufficient digit and dial spacing that prevents accidental lockouts
- Strongest latch (cam) in the industry and cannot be forced unlocked
- Cam latch type (standard offsets: 25mm, 32mm, and 39mm - additional available)
- Simple 2 screw installation
- Recessed mounted
- Accommodates doors 1-32mm thickness
- Ergonomic non-slip grip

- One step twist-&-pull operation
- Knob rotates 90 degrees (from 12 o'clock to 3 o'clock) on left and right hand locks
- Latch is simply interchangeable to left or right
- Clear locked and unlocked status indicator is visible from a distance
- Disinfected by misting with a liquid that is 70%-80% alcohol without damaging the surface of the lock
- **Immediate live response during business hours - no run around (sos@keyless.co or 972.331.2770)**
